

ALUMNI OUTCOMES

A SUMMARY OF RESULTS FROM
THE 2017 ALUMNI SURVEY

globalcitizenyear.org

Global Citizen Year is launching a generation of leaders with the insight, conviction and courage to move the world ahead.

GLOBAL CITIZEN YEAR

Each year Global Citizen Year recruits a talented corps of high school graduates and supports them through a transformative year of immersion in a local community in **Brazil, Ecuador, India** or **Senegal**. We select high-potential students from all backgrounds, seeding a pipeline of future leaders who reflect – and represent – the diversity of our society.

Using our model as a proof-of-concept, we partner with educators, policymakers and our alumni to ensure that one day an immersive global gap year becomes an integral part of a world-class higher education.

THE FELLOWSHIP EXPERIENCE

Preparing young people for today's world demands a new paradigm of teaching and learning – one that wraps education and instruction around real-world experience. Our 8-month Fellowship features a home stay with a local family, an apprenticeship with a community organization, language classes, and mentoring from country-based coaches. The experience begins and ends with expert-led leadership training in California, leaving Fellows with an influential lifelong network of mentors and peers.

ALUMNI OUTCOMES

Our Fellows develop skills and perspectives that guide their education, shape their character, and inform their future leadership. To understand how our alumni are progressing, we track the following outcomes:

- » **Maximizing College:** Are alumni making the most of their higher education?
- » **Applying Cross-Cultural Skills:** Are alumni working effectively across lines of difference?
- » **Becoming Engaged Citizens:** Are alumni engaging as changemakers in their local and/or global communities?
- » **Leading for Social Impact:** Are alumni succeeding in careers that are aligned with their values and will drive lasting social impact?

To begin to answer these questions, we surveyed our alumni in November 2017. 71% of them responded, and this report summarizes the findings.

A DIVERSE AND GROWING ALUMNI NETWORK

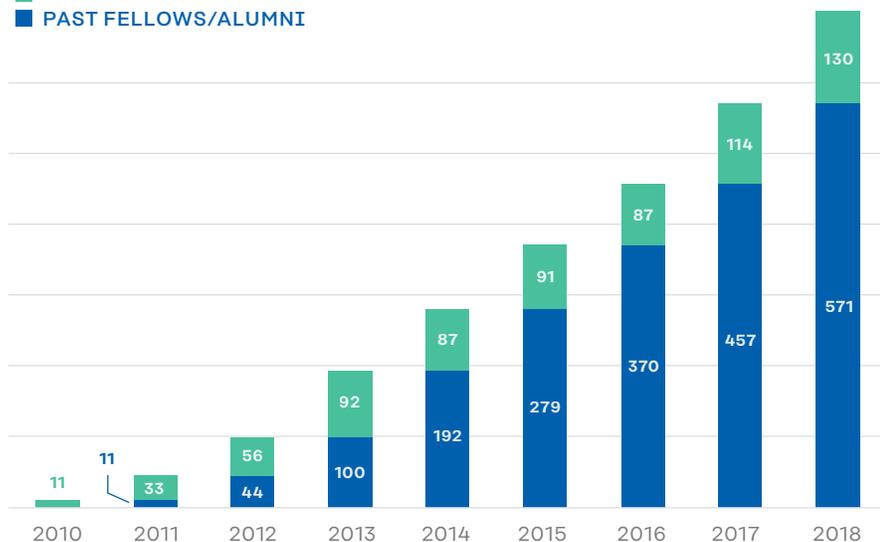

In 2010, we launched with a class of 11 pioneering Fellows. Today we have grown tenfold with 130 Fellows in the class of 2018 and more than 500 alumni thriving in college and early careers.

To date:

- » **49%** of alumni are from low income backgrounds.¹
- » **45%** are students of color.
